AUSTRALIA

A powerful, easy-to-use School Management System, trusted by thousands of K-12 schools across Australia for over 35 years. It empowers schools to streamline operations and enhance student outcomes.

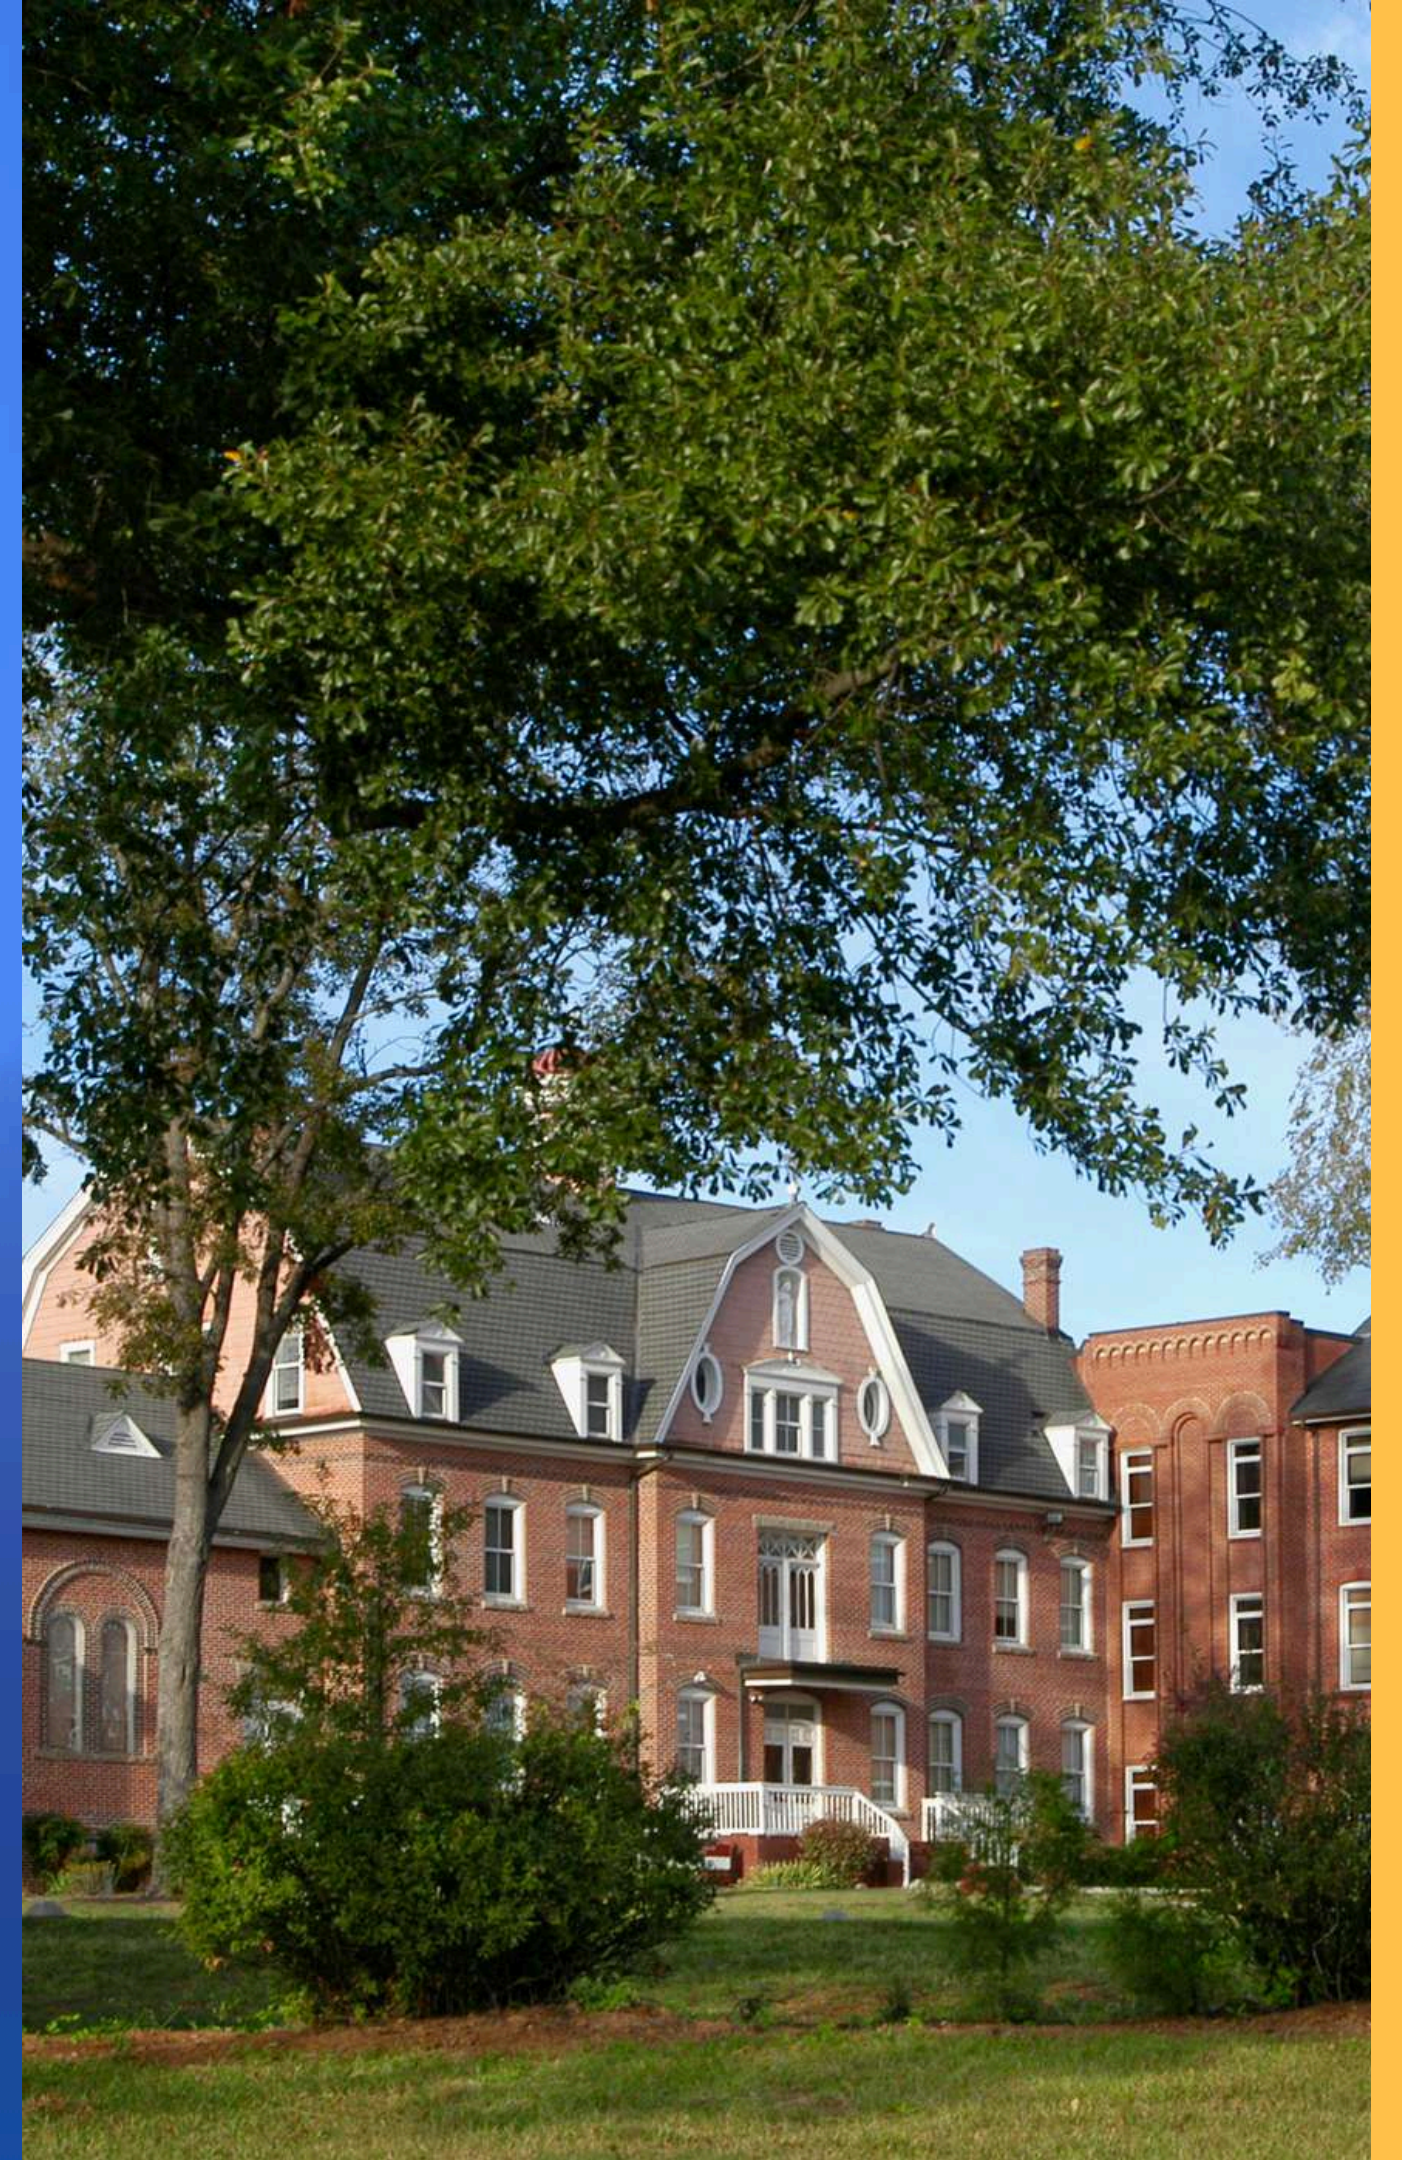

Why school operations feel heavier than they should

As part of our ongoing conversations with **school leaders, admin teams, finance staff, and teachers across Indonesia**, a consistent set of operational challenges keeps coming up:

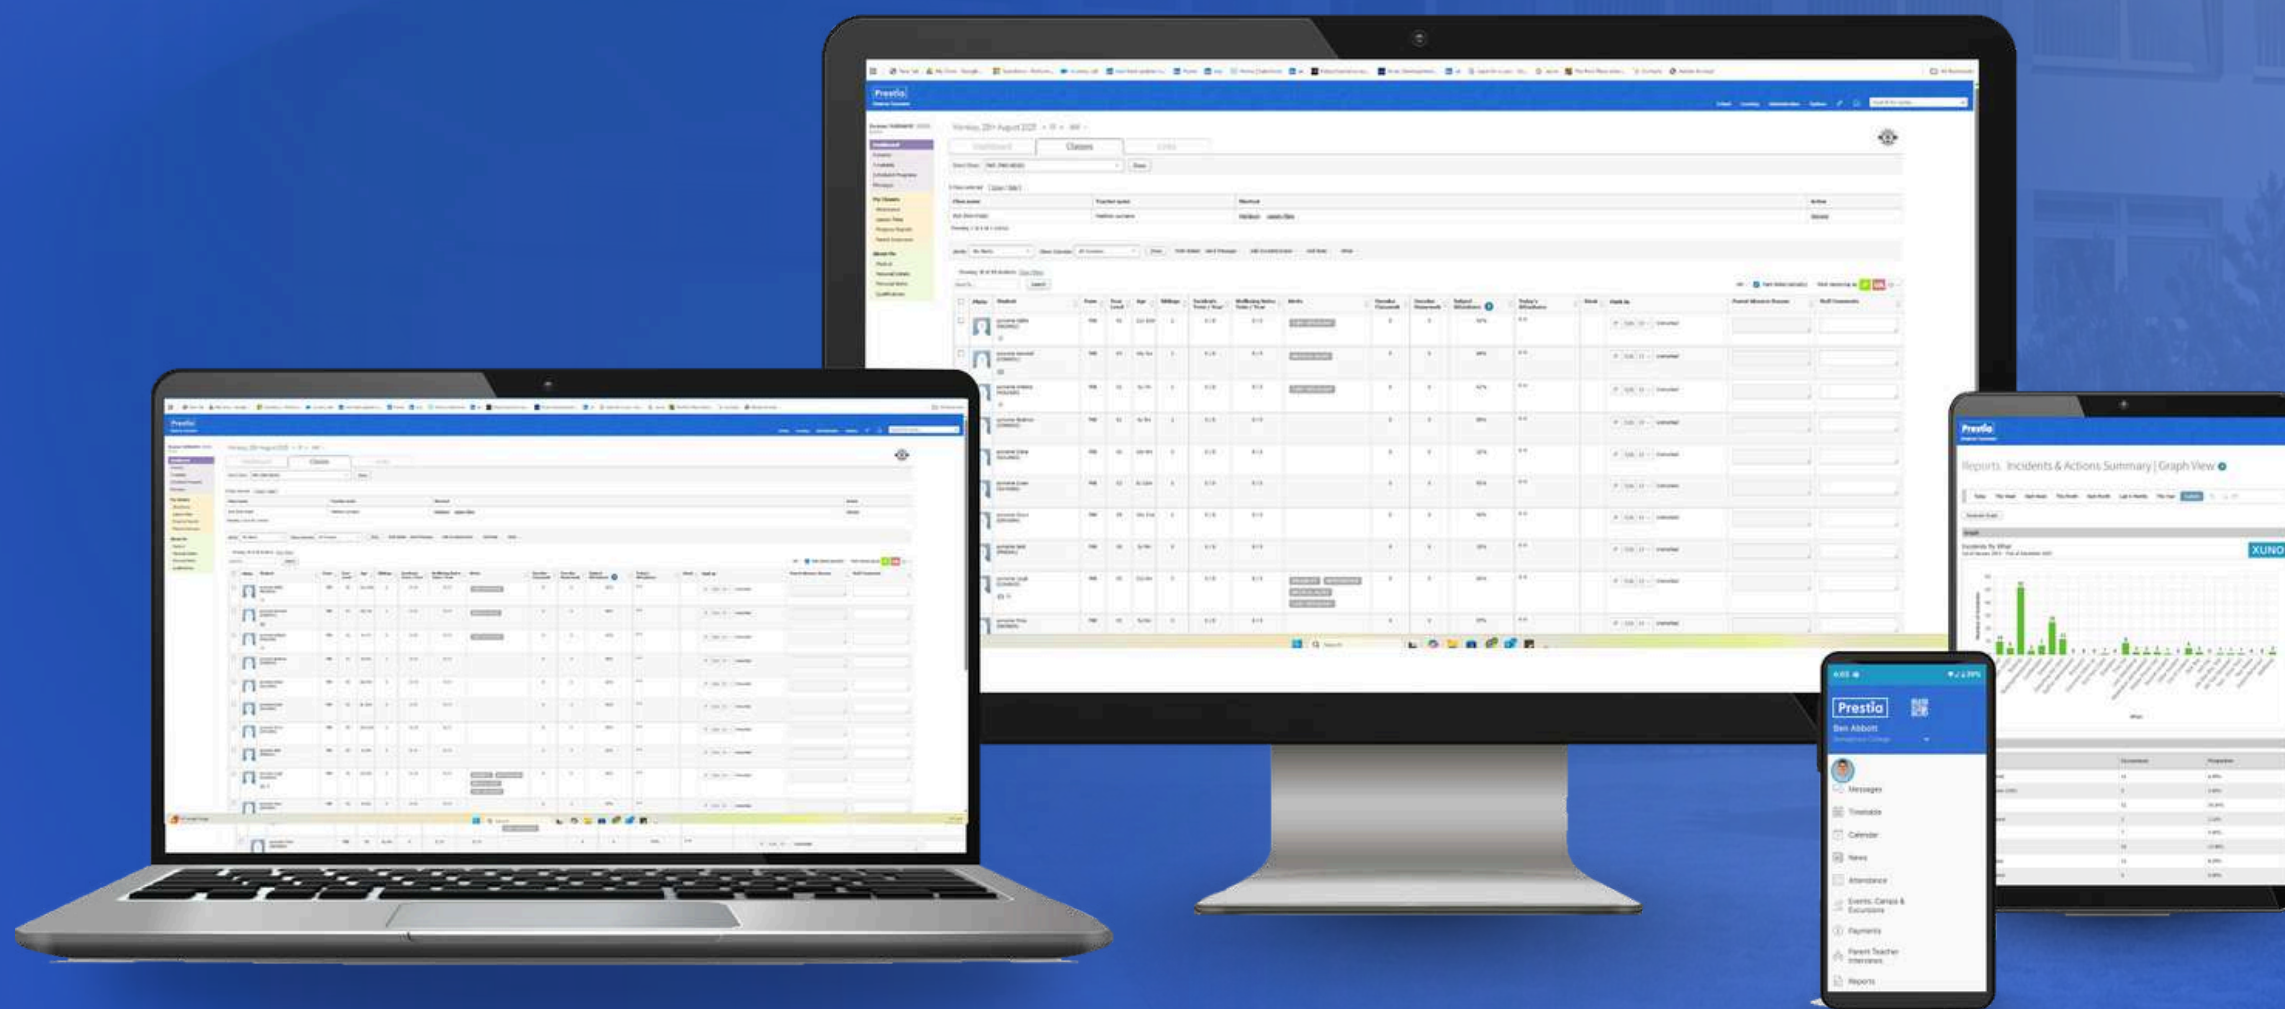

- Data spread across multiple systems and spreadsheets
- Heavy reliance on manual admin work
- Parent communication fragmented across email and WhatsApp
- Fees and event payments managed outside core systems
- Increased pressure on finance teams during billing cycles and school events

Many schools tell us the problem isn't their people – it's their **systems that don't work together.**

This is exactly where Prestia adds value.

The Key Difference: SMS vs LMS

Feature

- Online Assignments
- Grade Reporting
- Basic Messaging
- Learning & Academics
- School Administration
- Student Wellbeing & Visitor Management
- Admission & Events Payment
- Prestia Staff & Prestia Family Apps

Prestia (SMS)

Standard LMS

Why Prestia

From classrooms to finance,
all in one platform

Fully Integrated Ecosystem:

One platform connecting student data, admin, finance, events, and communication.

Specialized Admin Tools:

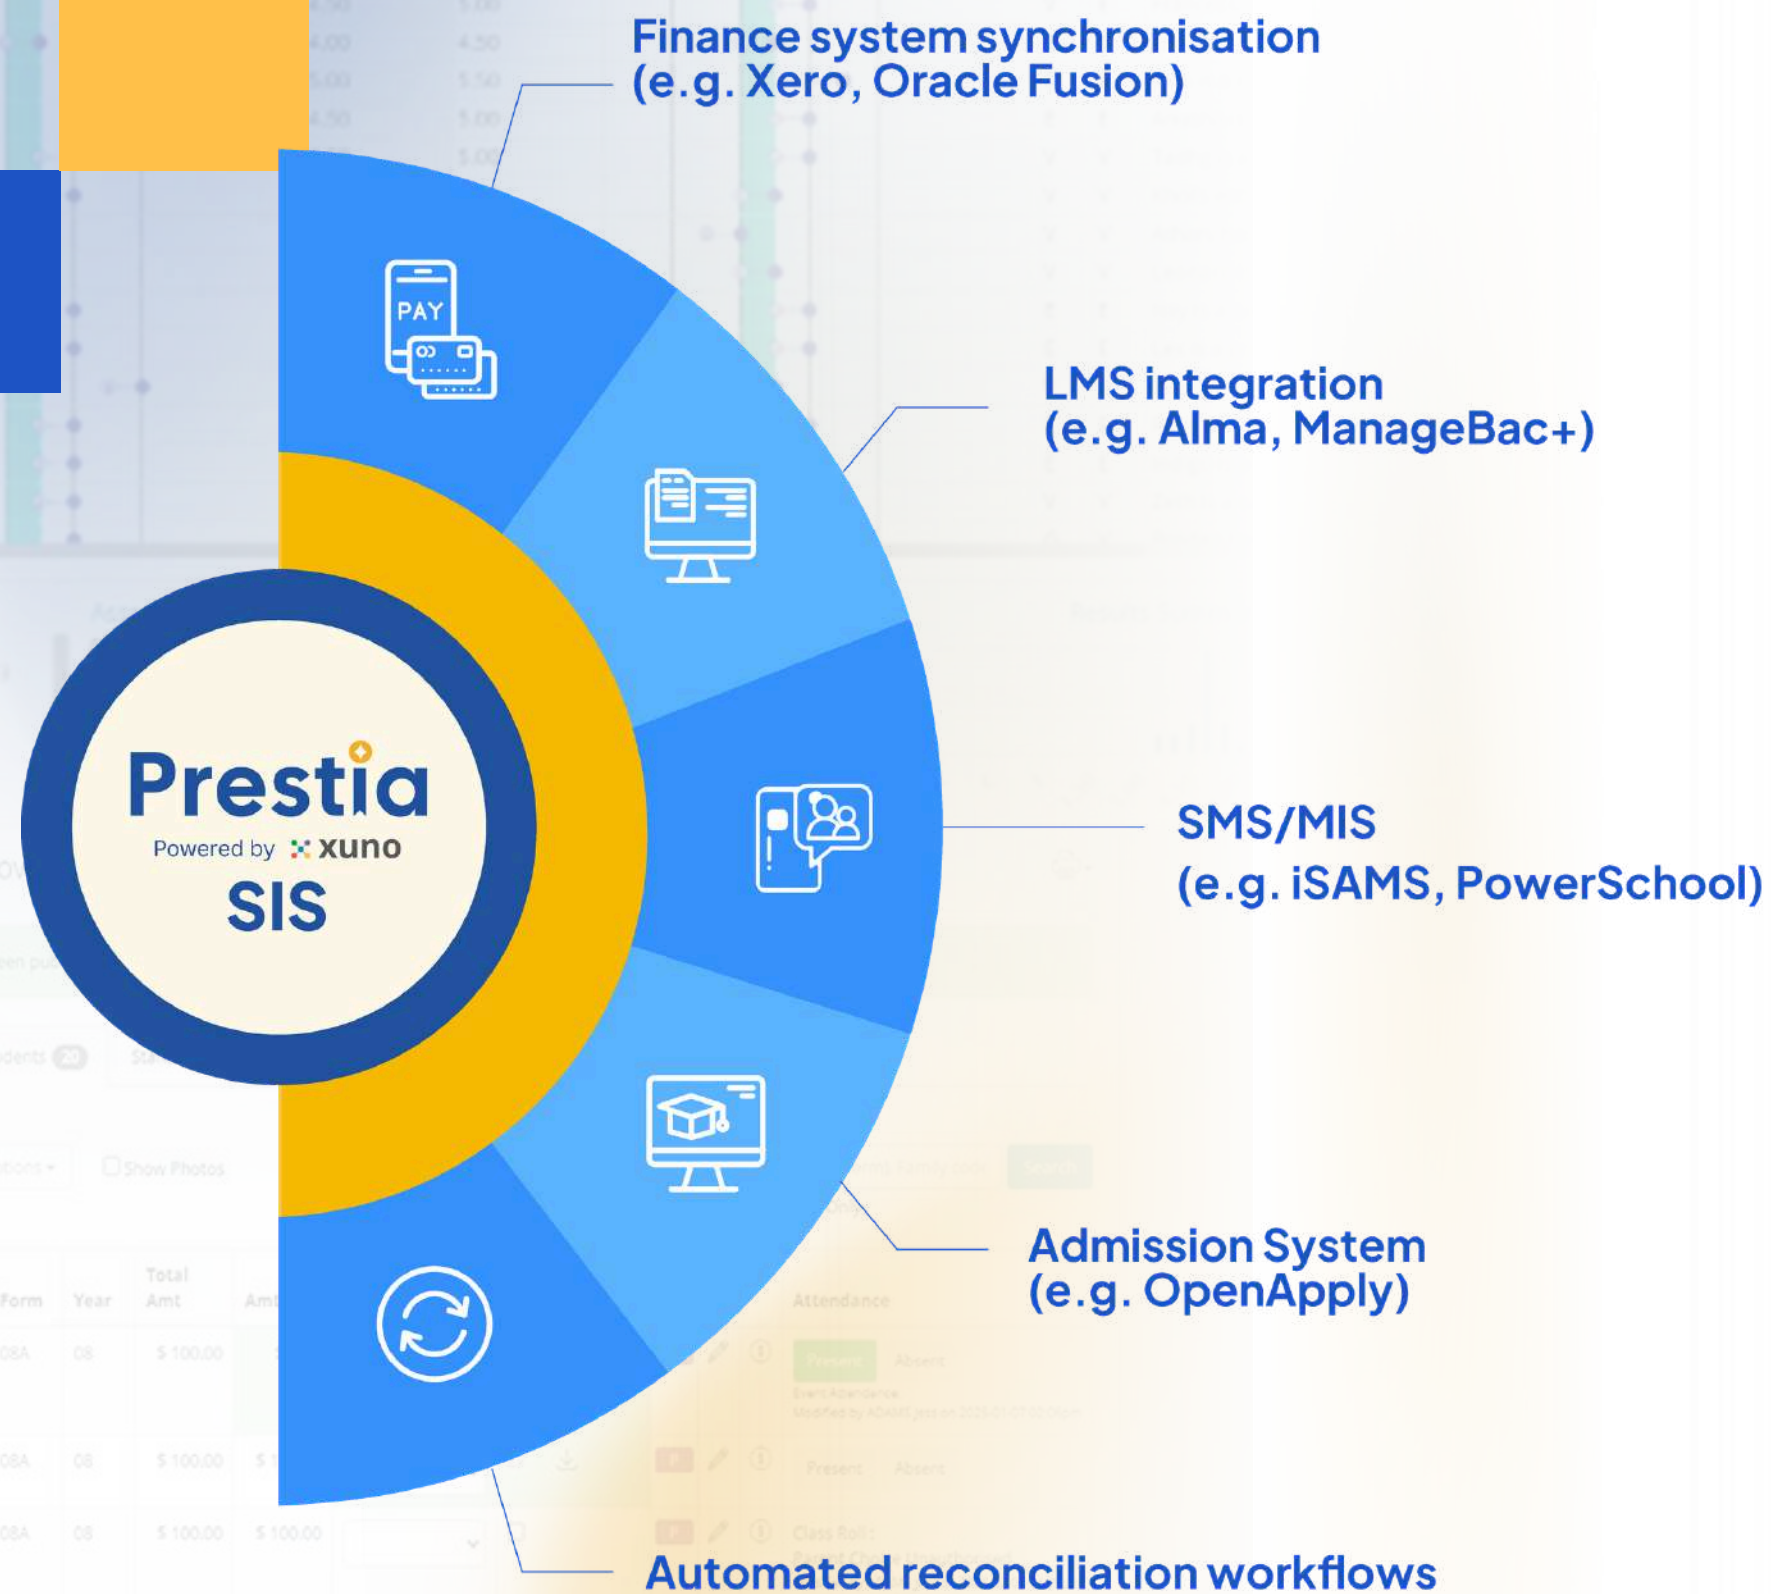

Unique features like Visitor Kiosks, PTA Bookings, and Event Payments.

Indonesian Data Compliance:

Secure, local data hosting, fully compliant with UU No. 27/2022.

Full Support & Migration:

Our team helps you move seamlessly from your current system.

Prestia Customised Solutions

Not every school needs a full system change - we recognise that.

With **Prestia Customised Solutions**, you can implement only what supports your current priorities, whether it's integration with your current school system or specific operational modules from Prestia.

Option A: Integration Layer (Prestia SIS)

Prestia acts as an integration tool to reduce manual workload between your existing systems.

- Connect LMS and sync with finance tools (Xero, Alma, ManageBac+, etc.)
- Integrate parent portals
- Eliminate manual workloads

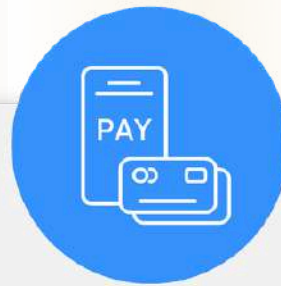

**Smart Attendance &
Campus Security**

**Student Wellbeing &
Behaviour Tracking**

**Parent & Staff
Communication**

**Admission &
Events Payment**

Prestia Customised Solutions

Option B: Standalone Modules

Purchase individual operational solutions:

- Smart Attendance & Campus Visibility
- Admission & Events Payment
- Parent & Staff Communication
- Student Wellbeing & Behaviour Tracking

Free Technical Consultation Workshop

Our team will:

- Review your current operational setup
- Identify immediate optimisation opportunities
- Recommend phased module implementation
- Provide integration roadmap guidance

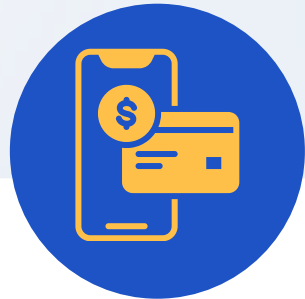

Administration & Finance

Go beyond academics. Prestia manages the entire student journey, paper-free.

Event Management

Plan field trips, get parent approvals, and process payments all in-app. Instant digital receipts for parents. Clear visibility of outstanding balances.

Online Payments & Forms

Secure, cashless, and paper-free permissions and fee payments. Payments via: virtual accounts and e-wallets. Automatic payment recording and reconciliation.

Visitor Kiosks

Manage on-campus visitors with secure sign-in and live evacuation reporting. Attendance for students, staff and teachers.

Prestia

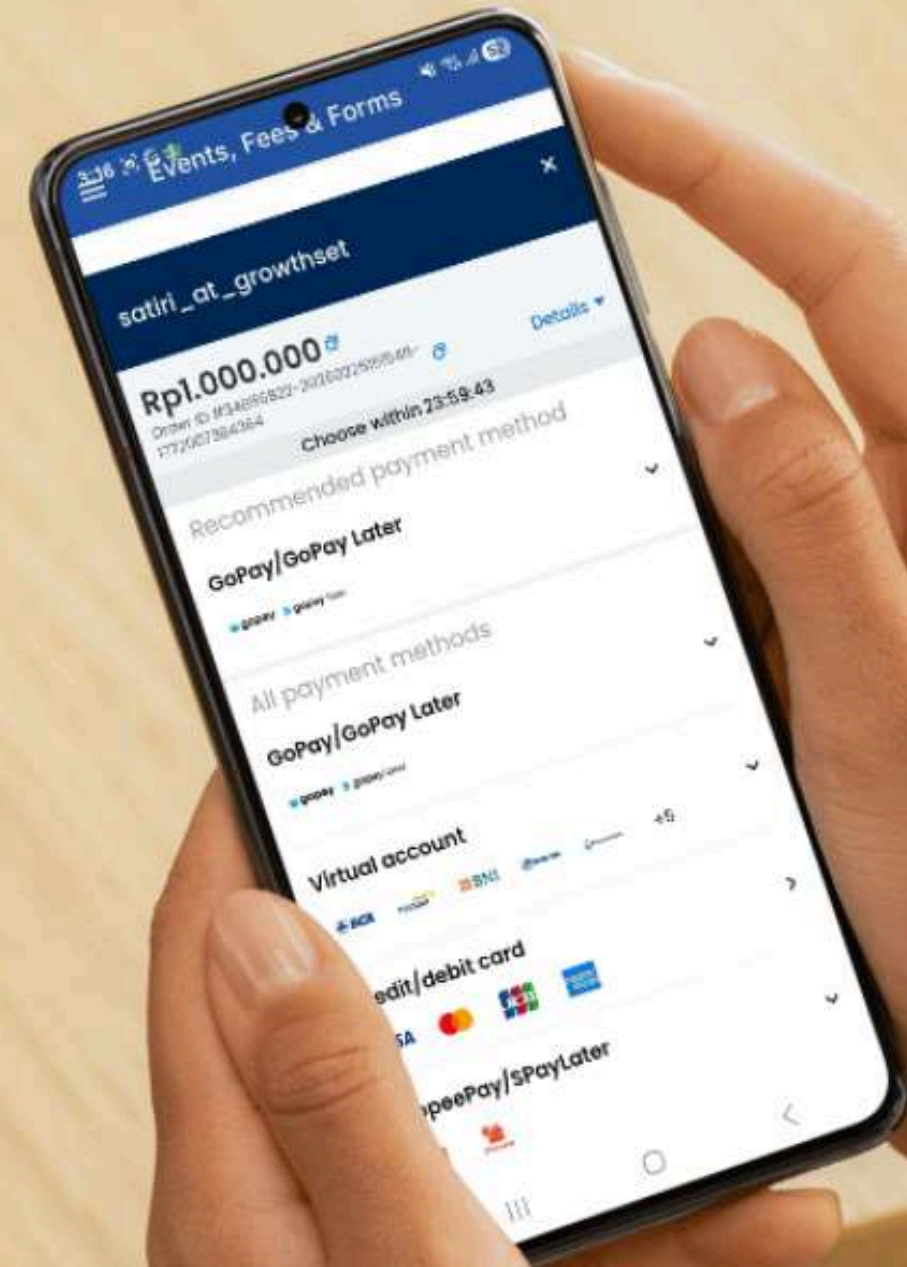

Sign-in Kiosk

Payment Gateway Integration

Powered by  xendit &  midtrans

Prestia integrates seamlessly with **Xendit and Midtrans**, Southeast Asia's leading payment gateway.
For finance teams, less manual reconciliation, fewer errors, cleaner records.

For parents, simple payments, immediate confirmation, and clear breakdowns of fees and events

Teacher - Parent Communication

A feature rarely found in standard platforms, allowing for holistic student care.

PTA Interviews:

Easy online booking and schedule management for parent-teacher conferences.

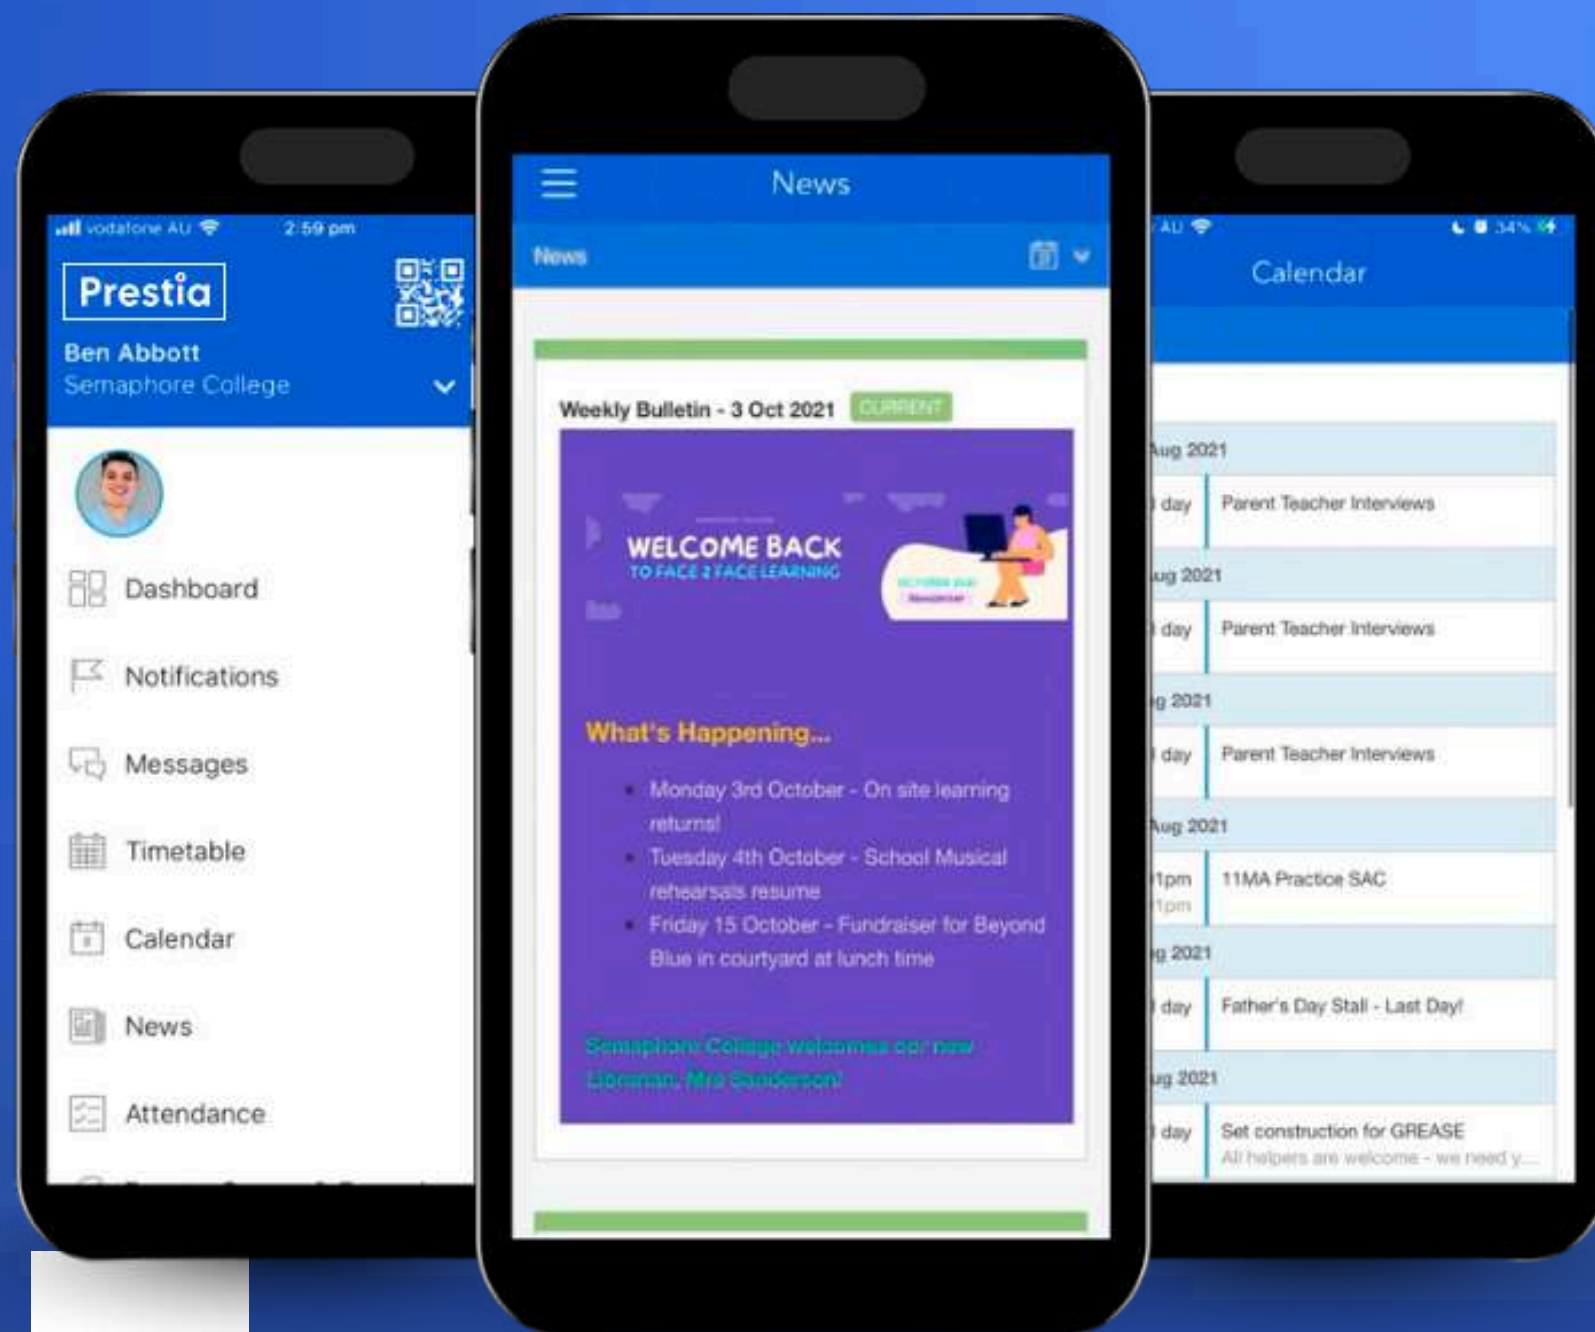

24/7 Parent App:

Real-time access to attendance, reports, timetables, and instant messages parent - teacher communication.

Bilingual Newsfeed:

Share school-wide news in English & Bahasa Indonesia with translation tools.

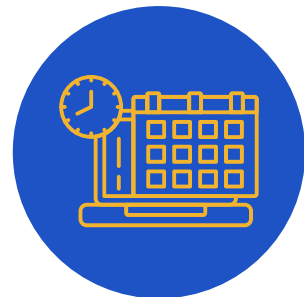

Centralised School Administration

Smart Attendance

Quick, paperless roll marking from any device, web, tablet, or phone.

Unified Calendars

Synced schedules for staff, students, and parents. Everyone knows what's next.

Daily Organisation

Manage room changes, staff allocations, and daily timetables with ease.

Wellbeing & Behaviour

A feature rarely found in standard platforms, allowing for holistic student care.

Incident Recording:

Record, track, and analyse wellbeing incidents

Proactive Support:

Identify trends to provide targeted student support and interventions.

Recognise Success:

Track merit points & automatically generate achievement awards, positive behaviour and certificates for students

A critical differentiator for Indonesian schools concerned with data privacy.

Data Security, Compliance & Global Trust

Local Data Residency:

All data is hosted in **Microsoft Azure's Indonesia** (Jakarta) region. Fully aligned with **Indonesia's Personal Data Protection Law** (UU No. 27/2022)

Legal Compliance:

ISO 27001: Information Security Management (Security & Risk)

ISO 9001: Quality Management (Governance & Improvement)

9ine Data Privacy Vendor: Demonstrating world-class data governance.

ST4S: compliant safety technology for schools.

International Trust & Vetting:

Recognised as an official **FOBISIA Affiliate Partner**, backed by **Microsoft**.

Prestia Local Support

Local Support, Based in Jakarta

Prestia is supported by a local Indonesian team of senior developers and technical account managers.

Our diverse **Jakarta-based team** works directly with schools to:

- Support onboarding and system integration
- Assist admin and finance teams
- Optimise payment and event workflows
- Provide ongoing technical guidance

Prestia Integrates With Your Existing Systems

Prestia does not have to replace what already works.
It integrates with your existing SMS, LMS, and finance systems to reduce manual work and connect fragmented processes.

What this means for schools

- Less manual admin and reconciliation
- Lower risk of errors during billing and events
- Cleaner data without disrupting current systems

Configured for How Your School Operates

Prestia is not a one-size-fits-all system. **We work with schools to configure workflows** that reflect their operational reality.

The result:

- Time saved for admin and finance teams
- Fewer human errors
- More accurate reporting and scalable operations

Choose the Right Path for Your School

Two Ways Schools Can Work with Prestia.

Prestia as an SMS

Full School Management System,
An end-to-end platform that manages your entire school ecosystem in one system.

- Academic management
- Attendance
- Finance & billing
- Events
- Communication
- Student wellbeing
- Reporting & analytics

Best for: Schools seeking a complete, unified school management platform.

Prestia Customised Solutions

Option A: Integration Layer (Prestia SIS)
Prestia acts as the connector between your existing systems.

- Connect LMS and sync with finance tools (Xero, Alma, ManageBac+, etc.)
- Integrated Parent Portals
- Optimise Fragmented System Workflows

Option B: Standalone Modules

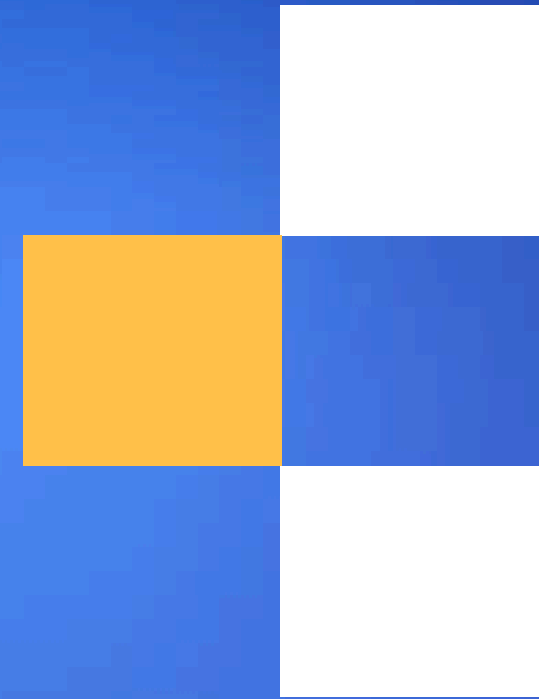

Purchase individual operational solutions:

- Smart Attendance & Campus Security
- Admission Fees, Events & Payment
- Parent & Staff Communication
- Student Wellbeing & Behaviour Tracking

Free Consultation & Technical Workshop

We are currently offering **free consultations and technical workshops** for schools in Jakarta and surrounding areas.

Free Consultation & Technical Workshop

These sessions include:

1. **Review** of your current admin, finance, and event workflows
2. **Discussion** of tuition and event payment challenges
3. **Identification** of manual processes that can be automated
4. **Practical** recommendations tailored to your school

Schools can choose:

- A **30-minute** consultation, or
- A **1-hour** technical workshop

There is **no obligation**, our goal is to **help schools** make informed decisions.
